A DISAPPOINTMENT.

The big passenger steamer Ontario, built by the New York Shipbuilding Company, at Camden, N. J., for the Merchants' and Miners Transportation Company, left last night for Baltimore, where she will be inspected by the officials of the line. The vessel arrived in liampton Réads yesterday afternoon after making her trial trip down the coast. She failed to make the required speed and it is said that the trial was a great disappointment. The members of the crow ntribute the failure to make the expected speed to the poor grade of coal used, and say that with proper fuel, the vessel will make a better showing. From Baltimore, it is said, the ship will go on another trial trip.

The Ontarlo will ply between this port and Boston.

Going across from where we saw the Indians singing, we followed the chief into a brilliantly lighted interior, with mirrors and pictures on the walls, and the tinkling of glass and female voices in a rear room.
